

備考

Technical drawing of a circular component with a rectangular protrusion. The drawing shows a top view with dimensions: total width 203, distance from left edge to protrusion center 116, distance from protrusion center to right edge 87, and protrusion width 76. The vertical dimension is 174, with two 87 segments. A label "ø75 横枝管接嘴受口" points to the protrusion.
